Forecast for Saturday 09 Oct 2021

Weather: Overcast for most of the day with rain at times, this turning heavy and persistent for brief time after dawn. Most of the afternoon will remain dull with some drizzly rain. Dry weather with clearing skies will spread from the west from late afternoon onwards to leave a dry and generally clear evening.

Chance of cloud free mountain/hill tops above 800m: Little chance for most of daylight hours

Visibility: Generally poor in widespread low cloud down to 500 metres, little prospect of any reliable cloud breaks for a good part of the day. Improving markedly along the Argyll coast from mid-afternoon as the cloud clears, and the Trossachs by dusk. Some uncertainty in the timing of improving conditions.

Glen	15/13	14/13	14/13	14/14	13/12	12/11	11/10
Freezing Level*	3000m	2900m	2700m	2400m	1800m	1600m	1500m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Poor conditions at height with strong winds and summit gales leading to notable wind chill, and poor visibility in cloud leading to navigational difficulties.

Forecast for Sunday 10 Oct 2021
Weather: A much brighter but quite cold day with significant wind chill at higher elevations. A few brief showers possible, these wintry above 1200 metres, but a reasonable amount of dry weather expected.

Maximum wind: Westerly 25 mph with gusts to 40 mph on the higher summits

Chance of cloud free mountain/hill tops above 800m: 90%

Visibility: Generally excellent with great air clarity. Some patchy cloud above 900 metres, and briefly poor in any wintry showers on the higher summits. A little patchy cloud around 750 metres in the west of the area at first.

Temperature: **Glens:** Plus 4 rising to 13 Celsius
At 800m: Plus 6 Celsius
Freezing level: 1400 metres
